

The Carpenter's Club

Giving back has always been important to people who know their lives have been influenced by the goodness and generosity of others. Being able to do for others what was once done for you enables each of us to connect our inner spirit with the outer expression of action and service. It is at the heart of what we value, what gives life meaning and purpose.

The Carpenter's Club is a select group who connect their faith and finances by doing good through the Upper Darby Community Outreach Corporation. Members choose to live generously by making wise money choices that make possible five basic services to people of all ages. Each of these services helps individuals improve life skills, strengthen family relationships, and make a positive investment in the community. (For a description of these services please see the other side.)

Members of the Carpenters Club make a monthly commitment of eighty-five dollars (\$85) for one year. UDCOC is a tax exempt not for profit meaning every dollar contributed goes entirely to what we do. That means your support enables us to help build a better community by changing lives.

Thank you expressing what's important by showing support of what matters to you. Your gift each month provides us the tools to build better lives, better families, better communities.
